TMDB AND LETTERBOX

Positive

The Super Mario Bros. Movie has generally received positive reviews from both TMDB and Letterboxd. Critics have praised the film for its creative visuals, humorous dialogue, and strong performances from Bob Hoskins and John Leguizamo. Many have also noted the film's clever use of video game elements to create a unique cinematic experience. Additionally, viewers have enjoyed the film's lighthearted tone and its ability to capture the spirit of the original Super Mario Bros. video game series.

Neutral

The majority of the reviews were neutral, with some praising the film's visuals and special effects, while others criticized its lack of faithfulness to the source material. Many noted that the film was entertaining and had some humorous moments, but ultimately felt that it was too campy and lacked substance. Some also felt that the acting was wooden and that the plot was too convoluted. Overall, most agreed that The Super Mario Bros. Movie was an enjoyable experience, but not one that would stand the test of time.

Negative

On Metacritic, the film has a score of 28 out of 100 based on reviews from 14 critics. The negative reviews criticized the film for its lack of faithfulness to the source material, its poor script and acting, its over-the-top special effects, and its overall incoherence.
